ABOUT ME

I am a BCA graduate having basic knowledge of Java and Python. I am enthusiastic about learning new technologies, improving my technical skills and gaining practical experience. I am looking for an opportunity where I can apply my knowledge, learn from real-world projects, and grow as a software professional.

EDUCATION

Bachelor of Computer Applications

Bhandarkars' Arts and Science College

Aug, 2023 - July, 2026

Kundapura, Karnataka

PROJECT WORK

Online Movie Ticket Booking System *HTML | CSS | PHP | MySQL*

- A web app that automates movie ticket booking with secure login, visual seat selection, payment, and e-tickets.
- Solves problems with manual booking: long queues, no seat visibility, double-booking errors, and wasted travel time.
- Key feature is a "Visual Seat Map" for interactive seat picking instead of a plain list.
- Includes user modules (registration, booking, payment, tickets) and an Admin dashboard (manage movies, shows, revenue).
- Built with HTML/CSS, PHP, and MySQL — aims to cut booking time from 15–20 minutes to under 3.

TECHNICAL SKILLS

- **Languages:** Python, Java
- **Tools:** Eclipse, Github
- **Other:** Cloud Computing, DBMS

SOFT SKILLS

- Adaptability
- Teamwork

ADDITIONAL INFORMATION

- **LANGUAGES KNOWN**
 - English
 - Kannada
 - Hindi
